

Across

- 2. You put them in wine bottles
- 3. red green blue etc.
- 7. hypothetical particle
- 10. parabolas have it
- 13. charge of 1.6×10^{-19} C
- 14. force of attraction
- 15. bench press a water bottle
- 17. The inverse of an electron
- 18. What binds neutrons and protons

Down

- 1. they are quark antiquarks and gluons
- 3. prevent energy crises
- 4. Makes something tasty
- 5. can bench press a truck
- 6. a particle with the spin of $1/2$
- 8. A very illuminating particle
- 9. made up of three quarks
- 11. charged particles with integer spins
- 12. more than 50 trillion/sec pass us
- 16. what's behind right hand rule?
